feb 7—tf] SAMUEL B. HICKCOX, General Agent. TWO FURNISHED ROOMS TO RENT.
Inquire at MRS. COLLISON'S Millinery Store,
sp 9—4r Sixth st., near Louisians av. Protection from Lightning.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Spratt's Electricity and Electro-Metallusous Lightning.

Signature Electricity and Electro-Metallusous Lightning of the Survey of Spratty Electricity and Electro-positive annealed Iros, with Zinc Protectors, and Electro-positive elements comblined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-serve connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (matented.) forming a lock; the whole mounted with a solid platinum silver point, (patented.) mounted with a solid platinum silver point, (patented.) the inches long, surrounded at the base with three angular negative magnets, which possoss the power, to an extraoriinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such law rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters pa-

electricity from the atmosphere when you suspect any being present. These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON, Washington City.

I do hereby certify that I have app lied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of sodium, (common sait,) acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

UNIVERSITY OF GA., October 8, 1850.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.
UNIVERSITY OF GA., October 8, 1850.
The Lightning Conductors of Mr. Spratt, offered to me, re well calculated to perform the office for which they are ntended. Yours, truly,
LEXINGTON, KY., February 20, 1850.

LEXINOTON, KY., February 20, 1880.

CHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Sprat's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

AUGUST, (A) November II 1850.

equal, and I think superior, to any other rod ever offered for my inspection.

Augusta, (ia.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric cadees most likely to corrode thom.

A. MEANS, Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith,

Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,

Prof. of Chem. in the University of Louisville.

REMOVAL.

WHITEHURST'S new and extensive GALLERY OF PREMIUM DAGUERREOTYPES, over the Store of Duvail & Bro., botween 4½ and 6th streets, Pennsylvania avenue.

This Gaillery personness many advantages over others, being built on the second floor, and arranged expressly for this purpose. It contains one of the largest skylights in this country, and is the most extensive and finest south of Baltimore. It possesses every fability for copying Paintings or Daguerreotypes, not having its superior in the world—where may be obtained beautiful and highly-finished Daguerreotypes in all weather, though

perior in the world—where may be obtained beautiful and highly-finished Daguerreotypes in all weather, though cloudy is preferable, except for children. Post-mortem cases promptly attended to.

Awarded the first medal at the late Fair of the Maryland Institute.

GALLERIES.—No. 205 Baltimore street, Baltimore; 347 Broadway, New York; Pennsylvania avenue, Washington, D. C.; 77 Main street, Richmend, Va.; Lynehburg, Va.; Norfolk, Va.; and Petersburg, Va. E.; These Galleries are open free to the public, at all hours of the day. sep 26—tf J. H. WHITEHURST, Sole Proprietor.

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of secious indisposition have occurred among the pupilis, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary Rnglish branches, Natural Philosophy, Chemistry, Physiclogy, History, Rheitoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular strention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in Silis respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

THIRTY-SECOND CONGRESS.

Term commences March 4, 1851, and terminates March 4, 1853. The First Session opens on Monday, December 1, 1851.

SENATE.

The Senate consists of two Senators from each State. Since the admission of California, there are thirty-one States, represented by sixty-two Senators. The Senators who held over from the 4th of last March were forty-one, viz: eighteen Whigs and twenty-three Democrats. Of the twenty-one new Senators, three are yet to be elected from the following States:

Connecticut, (one vacancy)-Democratic legislature just elected.

SENATORS HOLDING OVER AND ELECT. Whigs in italic; Democrats in roman—those marked F. S. are Free-sollers or Abolitionists; U., those elected as Union men; S. R., those elected as Southern or State Rights men.

HUNT'S MERCHANTS' MAGAZINE

BY FEREMAN HUNT, EDITOR AND PROPRIETO THE Number for December, 1860, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1889, and each volume now contains more than seven hundred large octave pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Ashlarp, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the stateman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

Freeman Hunt, esq. H. CLAY.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indipensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Lette: from the Hon. Thomas H. Benton.

Washington City. April 20, 1840.

Lette. from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchanus' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affaire of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant,

THOMAS H. BENTON.

THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward.

My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.
The Merchants' Magazine is published monthly, at 142
Fulton street, New York, by Freeman Hunt, and furnished to subscribers for Five Dollars a year, in advance. mar 24 THE BEST AND MOST VALUABLE AGRICULTURAL

E. WHITMAN, Jr., & CO.,
At the old stand. 55 Light st., Baltimers, Md. or retail. COLD SPRING WATER CURE.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is affilied, is situated about three miles from the city of Buffale, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-house and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorsma of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constitue gon of its attractions, are the fixtures and conveniences orincent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

medical supervision of S.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S.
M. Davis, M. D., Professor of the Theory and Practice of
Medicine in Central Medical College, and Geo. W. Davis,
M. D., formerly of Dansville, N. Y., the resident physician,
and is permanently associated with the before mentioned
gentleman as counsel, and associate of the medical board
of control. And the friends of the betablishment deer it
a matter of felicitation that the services of Miss Mary M.
Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at
any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwearied pains will be taken to have every thing appertaining
to the establishment arranged on a plan, and conducted
in a way, to ensure the comfort, and promote the health
and happiness of all who may wish to avail themselves of
its benedits. Baths of all descriptions, adapted to the cure
of the various forms of disease, and constructed on a scale
not inferior to those of any other establishment in this
country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease;
while intolerable sufferings and broken constitutions have
imperatively demanded "Reform." A return from a wide
and fatal departure from the simplicity of Nature's laws
is called for, alike by a rational love of happiness and the
deplorable exigencies of our condition. Hydropathy, or a
scientific use of water as a restorative and curative agent,
is a practical substitution of a simple and remarkably effiactious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the
mantery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the
various Water Cure esta

TERMS. For board, medical advice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two lines sheets, two cotton comforters, one woollen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davi J. M. D., 239 Main street, Buffalo, N. Y.
